Anudeep Thummalapalli

Senior Software Engineer at C&S | Full Stack Web Apps (Angular, React, Next.js, Node.js) | AI Agents | Building Scalable Cloud-Native Solutions on GCP

Keene, New Hampshire, United States

Summary

I'm a Senior UI Full Stack Developer with 8 years of experience building scalable web applications using Angular, React, Next.js, and Node.js.

My expertise lies in creating responsive, high-performance frontends and integrating them seamlessly with backend services on Google Cloud Platform (GCP).

I'm passionate about crafting intuitive user experiences, optimizing performance, and delivering enterprise-grade solutions that scale.

Core Skills: Angular | React | Next.js | Node.js | TypeScript | REST APIs | GCP | CI/CD | UI/UX Design

Always exploring new technologies and best practices to build faster, smarter, and more reliable applications.

___

Experience

C&S Wholesale Grocers
Senior Software Engineer
March 2023 - Present (2 years 9 months)
Keene, New Hampshire, United States

- Architected and developed multi-tenant enterprise web applications using Angular, ensuring scalability, performance, and security.
- Built a custom website builder using Next.js and Agility CMS (Headless), streamlining content management and accelerating deployment.
- Engineered React-based warehouse operations systems, improving operational efficiency and visibility across supply chain workflows.
- Designed and deployed CI/CD pipelines with zero downtime during production updates, leveraging Docker and Google Cloud Run for scalable cloud-native deployments.

- Partnered with UX, DevOps, and architecture teams to deliver secure, high-performing, enterprise-grade web applications.

Core Technologies: Angular | React.js | Next.js | Node.js | Agility CMS | GCP | Docker | CI/CD | Cloud Run | Multi-Tenant Architecture

Arkatiss LLP
2 years 8 months

Senior Software Engineer
April 2022 - March 2023 (1 year)
Hyderabad, Telangana, India

- Developed React SPAs focused on performance and responsive UI.
- Built and maintained RESTful APIs using Node.js and Express.js for seamless frontend-backend integration.
- Implemented a Data Pipeline ETL project to automate extraction, transformation, and loading of data for analytics and reporting.
- Collaborated with UX, QA, and DevOps teams to deliver robust, user-centric applications.

Core Technologies: Angular | React.js | Node.js | Express.js | REST APIs | ETL | TypeScript | Git | Agile

Software Engineer
August 2020 - March 2022 (1 year 8 months)
Hyderabad, Telangana, India

- Contributed to building Angular SPAs with strong emphasis on usability and performance.
- Participated in code reviews, optimized frontend logic, and ensured smooth deployments.
- Worked closely with cross-functional teams for UI/UX implementation and quality assurance.

Core Technologies: Angular | TypeScript | JavaScript | Git | Agile

SB Technology Services Pvt. Ltd.
Software Engineer
February 2018 - July 2020 (2 years 6 months)
Hyderabad, Telangana, India

- Built responsive user interfaces using Angular (v4–v7), improving web app speed and maintainability.

- Integrated REST APIs and performed testing with Postman for reliability.
- Collaborated with designers and product teams to transform business requirements into technical solutions.
- Managed version control using GitHub and SVN, ensuring clean development workflows.

Core Technologies: Angular | TypeScript | JavaScript | REST APIs | Responsive Web Design

Education

St. Mary's Group of Institutions
Bachelor of Technology (B.Tech.), Electronics and Communications Engineering · (2014 - 2017)
